

Your Guyde to Good Grooming

a full service salon for guys

Featured Service: Face It!

Studies show that people judge each other within the first 7 seconds of meeting. That is why it's important to always look your best and it starts with taking care of your skin. With just 5 minutes a day, you could be on your way to healthier, vibrant looking skin.

The good news is, it's never too late to begin a regular skin care regimen, however with all of the skin care products available on the market, selecting the right regime can be a daunting task.

American Male has simplified the selection process by creating three skin care products that cut through the clutter and help keep your skin looking the best it can.

American Male Daily Cleanser

This is a quick and easy daily exfoliator and cleanser in one product. Made for all skin types, the Cleanser is formulated with time-released Vitamins A & E to nourish and protect the skin throughout the day.

American Male Daily Moisturizer with SPF

Every person should choose a daily moisturizer with broad spectrum UVA/UVB protection to help fight against skin cancer and wrinkles. This light, non greasy formula is fragrance free, oil-free and made for all skin types.

American Male Weekly Scrub

To be used only a couple times a week, the Scrub is an intensive, skin resurfacing treatment. The concentrated crystals resurface and refine skin's texture for a smoother, healthier complexion.

There's More!

American Male has upgraded the Quality Grooming Experience face massage!

This new face massage, at no additional charge, will now be customized to your skin type. Think of it as a mini-facial.

Speaking of - American Male has introduced the new Signature American Male Facial service. The American Male skin care specialist will customize a treatment for your individual skin type. All facials include a deep cleansing, exfoliation, steam, extractions, and a custom blended treatment designed to help correct any specific skin conditions.
